## Letter from the President

### To Our Valued Customers:

Penn Jersey is a fully integrated distributor of disposable paper and packaging, restaurant equipment and supplies, sanitary maintenance chemicals and equipment. We hope you find this catalog to be a valuable tool in achieving your business goals.

Opened in 1963 by Thomas Furia, Sr., Penn Jersey has grown into one of the premiere paper, packaging, equipment and supply distributors in the mid-atlantic. Penn Jersey operates out of a 250,000 sq. ft. distribution center centrally located to service the mid-atlantic and northeast corridor. We represent the leading manufacturers and offer a large selection of quality products and programs.

PJP has always taken great pride in the communities we reside and work in. Part of that commitment is taking an active role in the way we do business and how it may impact our environment. When we needed to build our state-of-the-art facility, PJP was able to create a LEED Certified distribution center that not only our people and customers could be proud of, but our surrounding community as well.

When designing our new distribution center, one of the goals was to increase operation efficiencies while reducing labor cost. Voice to pick technology increases our productivity while reducing picking errors, ensuring that PJP continues to deliver at a greater than 99% fill rate.

It is Penn Jersey's goal to build strong customer relationships by offering quality products, timely delivery, and legendary customer service. We are committed to providing you with the best in total value. I would like to thank all of you whose patronage has helped to make our business a success and to welcome those of you whom we will be serving in the future.

Sincerely,  
**Thomas Furia, Jr.**  
**President**

# MISSION STATEMENT

Penn Jersey Paper Company is committed to the distribution of quality products and services, while ensuring both growth and profitability for our organization. It is our philosophy to strive for customer service and distribution excellence, while maintaining the traditional values from which our company has grown; Honesty, Integrity, Loyalty and Respect. As we look to the future, we will not lose sight of the past and continue to maintain valued partnerships with our customers, as well as our business associates.

- We continue to offer our customers the best products, services, systems and solutions.
- We remain on the forefront by delivering innovative products and utilizing the latest technology.
- We recognize the role our business associates play in our success and understand they are our partners.
- We are committed to working in a synergistic environment, as well as one which promotes the sharing of ideas and the development of others.
- We encourage both teamwork and leadership by example.
- We are committed to preserving our environment by offering our customers solutions which promote the goal of a sustainable society and are dedicated to reducing our overall environmental impact.

# PILLARS OF SUCCESS

**Service** – The quality of our service will be legendary, reflecting our commitment to excellence! We believe the products we offer should reflect our dedication and exceed the expectations of our customers.

**Integrity** – Integrity in all relationships is the cornerstone of personal and business success. Our communication and interaction with all members of our extended families and within our communities will be honest and ethical.

**Pride** – Our heritage inspires our enthusiasm, our energy and our passion. We will actively promote this pride in all members of the PJP family as a continuous service of inspiration and satisfaction.

**Dedication** – Fanatical attention to our customers' and associates' needs is the essence of our continued growth and success.

**Honesty** – We are committed to upholding the highest of ethical standards in our dealings with our associates and our customers.

**Loyalty** – We create enduring partnerships with our associates. We are accountable for our actions and hold ourselves and our associates to the highest standards.

**Respect** – We believe all associates in the PJP family have the right to be treated with sincerity and fairness and an environment of mutually high expectations that fosters their development to the fullest.

## Introduction

# BUILDING FOR THE FUTURE

When PJP was faced with space and resource limitations at our office/warehouse location of the last 25 years, we knew it was time to move. When it came to choosing a location for the new PJP distribution center, we knew that we wanted to stay in Philadelphia. When it came to constructing a new facility, we knew that we wanted to service the customer and we knew that we wanted to provide the ultimate work experience and environment for our employees.

One of PJP's missions is the promotion of a sustainable society and the dedication to reducing our overall impact. With that in mind, earning LEED® certification for our new distribution center was an easy decision.

PJP broke ground on our new distribution center in 2010 designed to be LEED® Silver Certified. Shortly after moving into the facility in 2011, PJP was rated LEED® Silver Certified.

### Some of the benefits of achieving this professional accreditation include:

- Low Emitting Fuel Efficient Vehicles
- Maximizing Open Space
- Stormwater Design - Quality Control
- Light Pollution Reduction
- Water Use Reduction
- Fundamental Refrigerant Management
- Green Power
- Storage and Collection of Recyclables
- Certified Wood (Materials and Resources)
- Minimum Indoor Air Quality Performance
- Low Emitting Materials
- Innovation in Design

### B. ZENIX® INTENSITY DINNERWARE ★★★ CARDINAL

Zenix® is created from the high temperature fusion of mineral raw materials, reinforced with alumina, which gives it remarkable mechanical strength. This is why Zenix® tableware is up to three times more resistant to shocks and chipping than porcelain. Zenix® has a perfectly smooth and non-porous reinforced surface. When stainless steel cutlery may leave marks on the hardest porcelains and scratch softer ones, it simply slides over Zenix® without leaving the slightest trace. Plates made of Zenix® keep their brand-new appearance day after day, wash after wash (300 domestic dishwasher cycles and 2000 industrial cycles).

## E. KLEENSTEAM II SINGLE WATER FILTER SYSTEM EVERPURE

Kleensteam II single system is Everpure's second generation of total water treatment system for steam applications. A total system delivering high quality filtered water with scale inhibition and deliming capabilities. New dual cartridge design provides enhanced performance for low or high flow capacity steamers and flexibility for expanding to meet future needs. Fine filters incoming water to improve the performance, maximize energy efficiency and increase the life of steam equipment. Reduces chlorine-induced corrosion. System is simple to install, operate and maintain. Easy deliming with ScaleKleen, which is fed into the boiler through the SR-X bowl without use of hazardous chemicals or special piping. Long lasting SS-10 cartridge is more effective in higher alkalinity, hardness, TDS and temperature installation.

# Tamper Evident Containers/Non-Hinged Plastic Containers

## A. CLEARPAC® SAFESEAL CONTAINERS DART

Clear tamper resistant and tamper evident containers. Ensure quality with Dart's new ClearPac® SafeSeal containers. Made of PETE, ClearPac® SafeSeal containers are specifically designed to inhibit tampering, eliminating the need for shrink bands and wrap labels. The TamperAlert Hinge protrudes outward when torn, alerting the customer that the container has been opened. The hinge remains attached to the container, for no loose plastic pieces. ClearPac® SafeSeal containers function as an easy to re-close and re-open, leak resistant two piece container once the hinge is torn.

## CHICKEN CONTAINERS

### D. PREMIUM ROASTERS ANCHOR PACKAGING

Includes a dome lid and base (combo pack) made with microwavable polypropylene. Heat tolerant under heat lamps and in warming units up to 230°F. Lids are easily secured and will not crack like those made of polystyrene. Leak resistant lid fit eliminates the need to over wrap with film or tape. Double vents allow steam to escape more freely to reduce condensation buildup. Unique stacking feature keeps container secure without blocking the vents in the lid. Minimal ribbing in lid, provides for a better view of product, better merchandising. Handles on ends provide a much easier and safer method for consumer transport. Classic casserole design provides for convenient store to microwave to table presentation.

## DUAL OVENABLE NON-HINGED PAPER CONTAINER

## F. PRESSWARE® CLASSIC STONEWARE™ DUAL-OVENABLE TRAY PACTIV

Dual-ovenable paperboard trays can be used in microwave or conventional ovens at temperatures up to 400°F for up to 60 minutes. For hot and cold food applications. They can be stored in a freezer or refrigerator without cracking or denting, and are ideal for freezer to oven cooking applications. Upscale structural design, along with color and graphics capabilities offer excellent merchandising opportunities for high visual impact. Made from 90% renewable resources. There are two closure options; clear OPS dome lids or peelable film (plastic dome lids are not to be used in microwave or conventional ovens). In the microwave oven, heating is enhanced because Pressware® trays are transparent to microwave energy and cooking hot spot areas are reduced with rounded radius corners and bottoms.

### B. SATINWARE® NON-LAMINATED TRAY PACTIV

Satin non-laminated foam lunch tray.

**023075** YTH10034 9" x 12", White 250/cs.

### C. SCHOOL LUNCH TRAYS PACTIV

Foam school lunch trays. These boxless school lunch trays provides a "green" packaging option by eliminating the corrugate used to package school lunch trays. Boxless school lunch trays are packaged using plastic overwrap that provides a tightly sealed "case" with built in gussets for improved handling and ergonomics. Boxless school lunch trays offer source reduction, cost reduction, and improved handling opportunities. School districts can lower costs for every waste disposal bin they can eliminate by reducing the amount of corrugate generated.

# Grocery, Liquor & Shopper/Handle Bags

## A. HUSKY HEAVY-DUTY BAGS

### DURO BAG

Give your products an extra dose of protection. The 50 lb. basis weight ensures a strong bag that will transport heavier items without worry of an accident. Thicker than a regular grocery bag, but not quite the armor of our Bulwark bag, this bag fits all the needs in between. Available both plain and custom printed, so you can get exactly the bag you want.

# Shopper/Handle & Tote/T-Shirt Bags

## A. HANDLE BAGS DURO BAG

It's no wonder consumers prefer the original "handle-up" handle bag by Duro four-to-one over other packaging alternatives. The idea is so unique that it's patented. With wide, stand-up handles and longer adhesive attaching strips, our handle-up bag is stronger, more durable, and more comfortable to use. And with superior custom printing in up to three colors on four sides, your message will really stand out. Handle bags are offered in kraft and white paper in a variety of sizes, and a handle-down style is also available.

## E. TWIST-EASE™ CARTRIDGE TWIST TIES

## TWIST EASE

The standard 4" tie is the basic tie used in most produce departments as a bag closure. The simplest, most cost-effective customer preferred system in use today. Each pack can be refilled in just seconds (click refills) with no costly spills all over the floor or in product displays.

## BUTCHER/STEAK PAPER

### A. KRAFT BUTCHER PAPER

### DELTA PAPER

Even more environmentally-friendly than Natural or Virgin Kraft, this paper is available at a lower price per pound. Recycled Kraft provides less tear and bursting strength and will break down more easily when exposed to friction or moisture, when compared to Natural Kraft. More economical and offers many beneficial qualities. It has successfully been used as newspaper bottom wrap, garment underlay paper, textile wrappers, interleaver, internal carton packaging, void filler or dunnage, dust covers, floor protection liners, carrier sheet, paint masking and box/tray liners. Other uses include bundling and stuffing.

### B. WHITE BUTCHER PAPER

### DELTA PAPER

Offers strength, reliable performance and good yield for a wide range of uses. It offers great cleanliness and liquid resistance. Ideal for use as a meat, fish and poultry wrap. It is also used to protect sandwiches, both hot and cold, and as a light wrapping paper. It is the perfect choice for wrapping foods due to its ability to resist grease, moisture and meat juices. FDA approved for direct food contact.

### C. PEACH BUTCHER PAPER

### DELTA PAPER

The primary appeal of these rolls is the attractive appearance of red meat when viewed on a peach colored wrap, and its significantly improved water and blood hold out, as a result of the additives used in papermaking. It is also believed that the water-repellent additives keep meat from turning brown and provide superior blood and moisture holdout. Often called "steak wrap", as they are widely used as a meat wrapper and interleaver. FDA approved for direct food contact.

### D. GARDENIA PAPER

### DELTA PAPER

The primary appeal of this sheet is the attractive appearance of fish and poultry when placed on this green-tinted wrap, and its significantly improved water and blood hold out, as a result of additives used in papermaking. The water-repellent additives provide superior blood, juice, odor, and moisture holdout. There are many ways to seal a package made of this paper. It is a superior full service counter wrap for fish and poultry products. Often called "fish wrap", as it is widely used as a seafood wrapper. It is also preferred by many poultry processors. The material is FDA approved for direct food contact.

## A. WHITE MG PAPER

## GORDON PAPER

Our most economical food wrapping paper. Light 30# basis weight gives excellent yield. Machine glazing (MG) is a process that imparts a smooth, shiny finish to the paper. This glazing occurs while the paper is being made on the paper machine. The resulting sheet is denser than other papers which aids in retarding moisture and oil penetration through the paper. Applications for MG include: sandwich wrap, scale sheets, and pizza box liners. Can be printed with customer logos with reasonable minimums.

## F. ALUPHANE® CELLOPHANE ROLLS ALLIED CONVERTERS

The high quality, colored pigments used in the manufacture of ALUphane and state-of-the-art processing insure consistent quality on every shipment and between shipments. This is a feature unavailable with the tinted polypropylenes and cellophane. ALUphane can be used as a decorative overwrap or a decorative shrink film. The transverse shrink is 35% and the longitudinal shrink is 70%. Because of its "dead fold" properties, the same as those in cellophane, ALUphane also is an ideal film for twist wrap applications. Recyclable. Made in the USA.

## CASE/BOX LINERS

### A. CASE LINER CONWED PLASTICS

Soft, pliable, and more economical than alternative liners. These durable nets can be easily washed and reused. Traps debris so it won't clog drainage systems. You can create attractive and more maintenance-free displays in produce, meat, seafood, dairy, and deli departments.

**033725** NE0577004 30" x 74', Red 1/rf.

### B. CUSHION CASE LINER CONWED PLASTICS

Softer and more pliable than standard packaging liner. More durable and economical for long-term use. An excellent alternative to standard case liner in deli and other applications. Stays in place better, provides more ventilation, and cleans easily and thoroughly. Traps less debris and won't promote mold. Its strength and thermal stability make it an excellent liner for freezer applications.

**033735** NR173003 36" x 36', Red 1/rf.

### C. GRIP LINERS CONWED PLASTICS

Produced with a soft, bubble-foam construction that provides great cushioning and protection. Grip Liner also offers a dry but tacky surface finish that enables slanted displays without slippage of liner or product.

**033738** 0588BK 36" x 62', Black 1/rf.

**033737** 0588GN 36" x 62', Green 1/rf.

**033734** 0588RE 36" x 62', Red 1/rf.

### D. CELLU LINER™ MEAT/DAIRY CASE LINERS SEALED AIR

These four-ply case liners are the most effective way to reduce odor and bacteria and enhance appearance in meat, poultry and dairy cases.

**033739** 100069682 15" x 250', White 1/rf.

### C. SPEEDSEAL® PAPER TRAYS

### OLIVER PACKAGING

Biodegradable: paper based package. Sanitary presentation: tamper evident seal. Freezer to oven: filled meal package functions from -40°F to 400°F. Polyester film lining provides a liquid barrier. Sealed compartments, no more cross contamination. Easy-to-open, proprietary film; easy to peel yet strong enough for the rigors of delivery. Heat retention: clients receive hotter meals. Speedseal® trays are made from a 100% renewable resource. Speedseal® trays are manufactured using 100% pre-consumer recycled materials and are compostable. Speedseal® trays are made in the USA, reducing carbon footprint for shipping. Seniors and agency staff will appreciate your food service program's commitment to the environment.

## A. CARTON SEALING TAPE

BOPP economy grade industrial carton sealing tape. Water based acrylic carton sealing tape line made with a special high-shear adhesive. Higher shear values mean greater holding power on boxes. Conforms to FDA requirements for indirect food packaging (CFR, Title 21, Subpart B, 175.105). These products can make ideal cold temperature, refrigerator, and freezer tapes.

## F. INNOSEAL® SEALER TAPE REFILL

## INNOSEAL

A special tape made of plasticized natural rubber that adheres to the neck of the bag. The result is a tape seal that can be opened and resealed as often as required. Also applies a paper tab between the two ends of tape. Having this paper across the base of the seal provides two very clear functions: it serves as a tab or a handle, which the customer can use to open and reseal the plastic bag, and it serves as a tamper evident barrier. The paper must be torn to open the seal and consumers will know if they are the first person to open the bag. • Tape: 216.54"L x 0.5"W • Paper: 65.62"L x 0.5"W

## ABSORBENTS/ICE MELTS

## C. AVALANCHE® ICE MELTER KISSNER GROUP

Contains special calcium magnesium acetate formula that forms a protective coating on the surface area to guard against concrete and corrosion damage. Safer to handle without protective clothing and does not dry out or irritate skin. Will not cause any unsightly tracking or residue problems when used as directed. Nature's own ingredients are combined for minimal harm to vegetation and plant life. With Avalanche® there is no slick and slimy tracking that takes place making clean-up virtually non-existent.

**165520** 8321875 50 lb. Bag, Skid 49/skid

**165522** 8321876 50 lb. Box 1/ea.

## D. SAFER THAN SALT® PREMIUM ICE MELTER KISSNER GROUP

Premium ice melter with Cl-56®. Contains corrosion inhibitor. Safer for the environment and vegetation. Safety green coating ensures visible and complete coverage.

**074002** 8516079 10 lb. Jug 4/cs.

## E. SAFETY ABSORBENT MOLTAN COMPANY

A premium calcined clay all purpose absorbent designed for the quick clean up of water, oil, and grease. Made from Montmorillonite Clay, a naturally occurring mineral with superior absorptive ability. Available in a paper bag or in a leak-resistant and moisture-resistant poly bag.

**165445** 7951 50 lb. Poly Bag 1/bg.

## F. WYK® SAFETY SORBENT WYK SORBENTS

A blend of natural ingredients that absorbs liquids from any surface. It is ideal for use on acids (except hydrofluoric), caustics, oils, solvents and toxic liquids. Safety Sorbent is unique; it absorbs liquids and retains them by chemical hydration which eliminates secondary spills caused by leaching. Works like a concentrate; you use less and have less waste for disposal. Tests show that Safety Sorbent is up to ten times more efficient than traditional sorbents. This will save you time and labor and reduce your overall clean up costs. Four times more absorbent than clay.

**165430** 500 2 1/2 lb. Cartons 12/cs.

(Per 5 gal. capacity) added to recovery tanks of wet vacuums can help prevent costly equipment damage and decrease time spent emptying tanks. Safe and effective in hard or soft water, acid solutions, alkaline, or other areas where foam is a problem. Designed for use in recovery tanks of extractors, wet vacs, auto scrubbers, and other equipment.

155229 41782 1 qt., Pro Line™ #63 6/cs.

# Spartan Carpet Care

## SPARTAN CARPET CARE

### A. BONNET & TRAFFIC LANE CARPET CLEANER SPARTAN

Concentrated formula provides the quick solvent cleaning action, fast dry time and deodorizing freshness desired when the bonnet method of carpet care is used. A blend of dry and wet solvents plus optical brighteners quickly transfers soils from carpet to bonnet surfaces. No soapy, sticky or tacky residue remains in carpet to contribute to resoiling. Fast drying. Gives carpets a just shampooed look. Excellent for high traffic lane cleaning. No special equipment needed.

**150315** 308504 1 gal. 4/cs.

### B. CONTEMPO STAT® CARPET SANITIZER/DEODORIZER/CLEANER SPARTAN

Low foaming, carpet sanitizer/deodorizer/cleaner for use with extraction and rotary spin pad cleaning equipment. Twin chain quaternary ammonium compounds reduce and control the growth of odor causing bacteria. Odor counteractants neutralize unpleasant malodors. Lifts and removes greasy soil, resists resoiling and utilizes built-in defoamers for more productive use. EPA Reg. No. 6836-108-5741.

**150320** 298004 1 gal. 4/cs.

### C. CX3 BIO-ASSIST® EXTRACTION CARPET CLEANER SPARTAN

CX3 Bio-assist® extraction carpet cleaner features a revolutionary safe and natural approach to cleaning carpet. This product does not utilize the typical solvents and phosphates for cleaning, but rather relies on a superior detergent system coupled with the digestive power of the Consume™ bacteria. These non-pathogenic microorganisms provide an environmentally sound process with which residual odors and soils can be eliminated. It is nature's way of cleaning. CX3 Bio-assist® utilizes low-foaming detergents that dry to a non-tacky powder, so it will not contribute to carpet resoiling. It contains no optical brighteners that can distort colors and is safe for use on 5th generation carpeting due to its detergent system and mild pH. CX3 Bio-assist® works with both hot and cold water leaving the carpeting clean, soft and with a subtle springtime fresh fragrance.

**150325** 311004 1 gal., 1:64 4/cs.

### D. PLUS 5® CARPET SHAMPOO SPARTAN

Formulated with high foaming, synthetic wetting and drying agents, inorganic builders, buffers, solvents and optical brighteners. Designed for extremely heavy-duty shampooing tasks. Use in foam or rotary machines. Fast-acting detergent complex penetrates and emulsifies grease, oil and ordinary soil. Anti-static.

**150300** 300505 5 gal. 1/ea.

### E. XTRACTION II® HEAVY-DUTY CARPET CLEANER SPARTAN

Fast-acting, heavy-duty carpet cleaner for use with hot or cold water extractors features a power boosting dual surfactant system. Optical brighteners enhance carpet color tones. Low foaming, unique wetting agent combination leaves no residue to contribute to resoiling. Non-corrosive. Use in all hot or cold water extractors. Biodegradable. Phosphate-free.

**150310** 309604 1 gal. 4/cs.

### F. CONTEMPO® H2O2 SPOTTING SOLUTION SPARTAN

A convenient, ready-to-use, hydrogen peroxide-based carpet spotting solution and pre-spray treatment. The clear colorless solution has a fresh crystal water fragrance. Provides on-the-spot cleaning action. Unique effervescent bubbling action easily removes most organic spotting problems. Cleans away the most dreaded food stains. Also effective against most cooking oils, grease, and motor oil. Designed with ingredients that penetrate, lift and oxidize stains. Dries to a brittle powder, leaving no tacky residue.

**157550** 313703 1 qt., Includes a Pair of Gloves & 3 Trigger Sprayers 12/cs.

# Spartan & Diversey Carpet Care/Diversey Chemical Systems

## A. SSE CARPET PRESpray & SPOTTER® SPARTAN

Ready-to-use, unique blend of solvents and crystallizing detergents provide optimum carpet maintenance at minimal cost. Use in conjunction with spray and extraction carpet cleaning technique; for pretreating traffic lanes prior to shampooing or extracting; for bonnet cleaning; as a pre-oil break or general purpose spotter. Pleasant citrus fragrance.

157530 303503 1 qt. 12/cs.

## B. DEFOAMER SPARTAN

Stable, white emulsion eliminates foam in recovery tanks of hot and cold water soil extractors, automatic shampooing equipment and floor scrubbers. Assists efficient recover and continuous equipment use. Non-corrosive. Will not harm equipment. Phosphate-free. White color. Mild fragrance.

150305 302404 1 gal. 4/cs.

## C. CONTEMPO® CARPET REFRESHER SPARTAN

Everyday odors like smoke, pets, cooking and musty/stale odors can become trapped in the carpet fibers and make it smell foul and unpleasant. Freshen carpet with Contempo® Carpet Refresher. Simply spray the mousse-like foam onto the carpet and allow to dry for five minutes. No vacuuming is needed to enjoy the freshening attributes.

# THE ONLY PAPER TOWEL THAT KILLS OVER 99.99% OF HARMFUL BACTERIA ON HANDS\*

## The most innovative technology for hand hygiene.

As you know, handwashing is the most impactful way to control the spread of bacteria. You might not know that the drying method you choose is just as important. The innovative Cascades Antibacterial paper towels release an active ingredient as hands are dried after washing, eliminating over 99.99% of residual bacteria.

Cascades® Antibacterial paper towels provide a simple and effective way to further reduce bacterial contamination and transmission. These towels can fit anywhere and don't require additional steps or change in habits.

**More than ever, health is in your hands.**

CLEANING TOOLS

# Wet Mop Basics

Professional grade mops and accessories make floor care easier. We offer a wide variety of hard-working products to help you run a smarter, safer and more profitable operation. Use the guide below to help choose the right products for your floor care needs.

## YARN

With a variety of mops to choose from, it's important to choose the right one for your job in order to get maximum efficiency and value from a wet mop. Some yarns naturally perform specific cleaning tasks better than others.

**WIDE BAND**  
5" Width

**NARROW BAND**  
1 1/4" Width

**CUT-END**

YARN TYPE	ADVANTAGES	DISADVANTAGES	USE
<b>COTTON</b>	Good absorption & retention with limited shrinkage and a low initial cost.	Break-in period required. Slow drying yarn promotes mildew and deterioration. Lints.	Designed for general use. Scrubbing and cleaning up liquids.
<b>RAYON</b>	Absorbs quickly with easy release. Dries fast and is mildew resistant. Cleaner yarn with less linting.	Shrinks when laundered and has less liquid retention.	Use for applying liquids such as disinfectant or floor finishes.
<b>SYNTHETIC</b>	Long stable fiber offers excellent tensile strength without linting.	Higher cost. Poor absorption.	Rough surfaces.
<b>BLENDS</b>	Excellent choice based on performance, price and durability. Synthetic fiber offers durability and color options.	Possible shrinkage.	Requested by professionals who require a better, longer lasting mop.

## YARN PLY

The term yarn ply indicates the number of strands twisted together to make a single yarn strand. Although more plies give added strength, it does not always mean higher quality yarn. More strands can add durability, but they decrease absorbency so it's better and more cost effective to choose a higher quality yarn than a high ply, low quality yarn.

## TWIST

The "twist" of a yarn is a result of how tightly the fiber strands are wound together. A tightly twisted yarn might have more strength and last longer, but it can have less absorbency. Just like yarn ply, the best choice isn't determined by the yarn's twist, but by the type of quality of the yarn, as well as the mop's construction. Mops with looped- end construction allow the yarn to have a loose twist without the fraying.

## CUT-END VS LOOPED-END MOPS

### CUT-END

Cut-end mops are the most popular. They have a lower purchase price and are perceived to be more economical. But because cut-end mops cannot be laundered, they are often thrown away before their lifespan is complete, making their ultimate cost higher. They cover less area per pass when mopping. Cut-end mops fray and unravel with use and have a tendency to leave behind loose strands and lint.

### LOOPED-END

Outlast cut-end mops 8 to 1. Looped-end mops offer a superior performance and last longer than cut-end style mops. Their tailband style gives better mopping coverage and the looped-ends prevent fraying and unraveling so you can enjoy reduced labor costs and lower replacement cost. Although their initial cost may be more expensive than a cut-end style, their long-lasting use and better mopping coverage ultimately make them a more economical choice.

B.

## B. GREASE HOG INDOOR MAT THE ANDERSEN CO.

Perfect for use in kitchens to stop oil and grease from being tracked into the dining rooms causing stained floors and slip and fall hazards. Solution-dyed polypropylene fabric will not fade or rot. Permanently molded bi-level pattern on the carpet surface prevents pile from crushing and provides an anti-slip surface. Grease proof nitrile rubber backing. Low profile fabric construction ensures easy cleaning and quick drying. Simply use mild detergent and hot water, brush with deck brush and or spray with water, and hang to dry. Low profile reinforced borders ensure mat will lay flat and will not crack and break while allowing carts to cross easily. Heavy construction makes this product less likely to "bunch-up", causing trip hazards. Unique disk pattern on back of mat keeps it in place on hard floor surfaces. Cleated backing is available for carpeted surfaces.
