Quick Facts

Don't settle for an aerosol spray that only disinfects hard surfaces OR simply "freshens" the air or fabrics.

- ✓ Disinfects hard surfaces with 24 EPA-registered kill claims
- ✓ Sanitizes soft surfaces in just 30 seconds
- ✓ Sanitizes the air and kills odor-causing airborne bacteria
- ✓ Reduces allergens* which trigger allergies and asthma

Hard Surface Disinfection

Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill 24 key germs of concern, including the viruses that can cause cold and flu, key bacteria associated with food poisoning — E. coli & Salmonella, as well as MRSA, HIV, Herpes and Athlete's Foot Fungus.

Soft Surface Sanitization

Illness-causing bacteria live on soft surfaces too! Don't be fooled by products that simply freshen fabrics — Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill bacteria and sanitize soft surfaces in just 30 seconds. Clorox® 4 in One Disinfectant & Sanitizer can help prevent the spread of illness-causing bacteria on mattresses, curtains, cushions, rugs, mats and more.

Air Sanitization

Clorox® 4 in One Disinfectant & Sanitizer is EPA-registered to kill odor-causing bacteria in the air. If your current aerosol is just masking odors, you're not getting at the root of the odor problem. Clorox® 4 in One Disinfectant & Sanitizer eliminates odors at their source and leaves a pleasant citrus scent.

Reduces Allergens*

Clorox® 4 in One Disinfectant & Sanitizer is proven effective at reducing key common allergens*. While allergens cause all-too-common allergies, they are also one of the key triggers for asthma — a serious health and economic concern according to the CDC.
